REMEMBERING SOLDIER 📍 Location: Abu Sir, Egypt ~ Longtime followers will remember a special EEA case, an old horse we called Soldier! After his rehabilitation Soldier was one of a group of four horses and a donkey that went from EEA to The Behman Hospital in Helman, Egypt, to become equine therapists for psychiatric patients. Today marked the first anniversary of old Soldier's death, and his life and service were remembered by the Behman's equine therapy staff. To learn about Soldier, see our post of June 9, 2016. Our post of November 14, 2016, shows all the future therapists. Soldier's owner bought him the day before he came to EEA, only to find he had a horse that couldn't work. An old injury left him with chronic cellulitis and his poor condition made him susceptible to skin conditions. He had terrible teeth from a lifetime of neglect, edema in his legs, and bad feet. He arrived on a stinking hot day, being towed behind a tuk tuk, exhausted and dehydrated. At first he seemed a hopeless case, but after a few days of TLC, he picked up and following months of care, went on to begin his new career. Thank you, Soldier, for your service. We will always remember you. ❤️ 😊 ▼ ♦ ■ There are a few different options for donating to help EEA. The PayPal address is listed in every Instagram post. Other ways to help are given on our Web page, egyptequineaid.org. — ❤️ ♦ The EEA team work to exhaustion every day, but their efforts are possible ONLY with the help of our donors! ❤️ If YOU would like to help our deserving patients and assist us to continue our FREE services for needy local equines, PLEASE DONATE via PayPal [egyptequineaid@gmail.com]. Any amount helps. We CANNOT do it without you! Or just hit the 'donate now' tab at the top of our Facebook page (link in our profile). 😊 ♦ ♦ #EEA #egypt #pyramids #egyptequineaid #rescue #horse #donkey #helpinganimals #animaldoc #cairo #veterinarian #vetclinic #cat #colic #abusir #freeclinic #vettech #vetmed #dog #workinganimals #donations #carthorse #farrier #hoof #foal #animalwelfare #pony #farrier #tetanus
